Master of Science in Applied Economics

Our program combines rigorous training in economic analysis and applied econometrics, allowing our students to build strong quantitative and empirical skills highly demanded across industries.

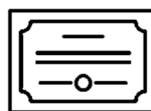

You can view a [series of short videos](#) describing admission requirements, curriculum, costs, placement outcomes, and other features of our Master in Applied Economics at The University of Maryland.

**Ranked #1 by
TFE Times**

**Rich Alumni
Network**

**STEM-designated
curriculum**

**Tuition Lower than
Similar Programs**

**Duration
15 – 24 Months**

Important Features

Most classes are provided in-person. The curriculum can be taken in two locations: Washington, DC and College Park, MD.

International applicants who would need an F-1 visa sponsored by the University of Maryland must apply to the College Park version of our program.

The Washington, DC program operates on a 12-week quarter term-based academic calendar. The College Park program operates on a traditional 15-week semester-based academic calendar.

Students can complete the DC-based version of our program in as little as 15 months by taking 2 courses per quarter. Full-time students in College Park complete the degree in 2 academic years.

Our Graduates

"Maryland's program was a great experience for me as I pursued the degree in order to change my career. I was able to take on a number of internships while taking courses in the evening at the DC campus. In my career since graduating from the program, I've used a lot of the skills that I learned in my classes."

Jacqueline Lavalleye, MAE' 17
